

Weichai Power-H (2338 HK)

3Q20 profit +37% with improved margin & KION's operation; Upbeat guidance

Weichai's 3Q20 net profit came at RMB2.4bn, up 37% YoY. The results are encouraging as (1) revenue surged 48% YoY which is above expectation, (2) gross margin rebounded 1.7ppt QoQ which should ease market concerns. We see several positive drivers going forward: (1) Management is confident of achieving sequential gross margin improvement in 4Q20E; (2) Latest guidance of **KION (KGX GR)** offers improved visibility; (3) New business growth is on good track. We raised our earnings forecast in 2020E-22E by 2-5%, due mainly to higher sales volume assumptions. Our SOTP is lifted from HK\$19.2 to HK\$20.8, after rolling over the base year to 2021E. Maintain **BUY**.

- Key highlights on 3Q20 financials.** Weichai's revenue surged 48% YoY to RMB52.9bn. Based on our calculation, Weichai's revenue from core business (ex-KION) surged 90% YoY to ~RMB36bn, while KION's revenue slightly dropped 4% YoY to EUR2.07bn. Blended gross margin in 3Q was 19.3%, down 3.5ppt YoY but up 1.7ppt QoQ. Weichai maintained good expense control with SG&A ratio continued to reduce YoY. Net profit grew 37% YoY to RMB2.4bn. It's worth noting that KION reported adjusted EBIT/net profit of EUR159mn / EUR82mn in 3Q20, representing a significant recovery from a net loss of EUR17mn in 2Q20.
- Engine sales volume +90% YoY in 3Q20.** In 3Q20, total engine sales volume grew 90% YoY to 260k units. Among this, HDT engine surged 100% YoY to 120k units, with market share increasing 2.5ppt YoY and 4ppt QoQ. LDT engine surged 2x YoY.
- New business on good track.** In 9M20, large-bore engine, mainly installed for data centers, grew 30% YoY to 2.5k units. Revenue from hydraulic component grew 40% YoY in 9M20.
- Positive management guidance:** (1) Volume of gas engine model with less usage of precious metals will further increase in 4Q20E, which will drive gross margin sequentially; (2) Sales volume of engine to **Sinotruk (3808 HK, BUY)** is expected to accelerate; (3) Amid the latest city lockdown in Europe, KION is still expected to deliver EUR101-181mn of adjusted EBIT in 4Q20E. In particular, KION's supply chain solutions will continue to benefit from e-commerce project growth.

Key takeaways from post-results conference call

Sales volume of engines

- Total engine sales volume surged 90% YoY to 260k units in 3Q20. In 9M20, total engine sales grew 35% YoY to 720k units.
- HDT engine surged 100% YoY to 120k units in 3Q20. According to management, market share in 3Q20 gained 2.5ppt YoY and 4ppt QoQ. In 9M20, HDT engine sales grew 30% YoY to 360k units, accounting 50% of the total engine sales.
- LDT engine surged 200% YoY to 85k units in 3Q20. In 9M20, the sales volume grew >100% YoY.
- Large-bore engine grew 30% YoY to 2.5k units in 9M20. Revenue reported similar growth in the period. Order intake in Oct reached 200 units. Management expects the full year growth to be similar to that in 9M20.

Gross margin

- Weichai's blended gross margin in 3Q20 improved 1.7ppt QoQ to 19.3%. According to management, gas engines with less usage of precious metals launched in mid-Jun has helped improve the gross margin in 3Q20.
- In 4Q20E, Weichai will launch more gas engines with lower level of precious metals. Gross margin is expected to further improve from 3Q20 and return to a level similar to 1Q20 (around 22.4%).
- In the longer term, Weichai is expanding the sales volume of engine in the field of industrial power (including large-bore engine), agricultural machinery and LDT. Therefore, the gross margin will be subject to the product mix going forward. In particular, LDT carries relatively lower margin at present. That said, management expects a higher industry concentration in the LDT sector. Such potential improvement of competitive landscape could help Weichai to raise price in future.

KION

- KION's latest guidance has already taken in consideration the latest impact of COVID-19 related city lockdown in Europe.
- This new wave of pandemic has less impact on Germany, compared with France and Italy. Besides, KION has experience in managing the crisis and therefore the operation is expected to less affected in 4Q20E, compared with 2Q20.

HDT industry outlook

- Weichai expects the HDT demand in China to reach 1.5mn units this year. In 2021E, Weichai expects at least 1.2mn units of demand. Weichai is confident of gaining market share in future.

Weichai's engine sales guidance

- Weichai expects the production volume of engine in 4Q20E to increase slightly compared with that in 3Q20. Inventory level is currently less than half month.
- Engine installation to Sinotruk increased in 3Q20, with volume reaching the total sales to Sinotruk in 1H20. The high installation was driven by market demand. Weichai expects the installation ratio to remain high for the full year.

The implementation of NES VI

- National Emission Standard (NES) VI will be effective on 1 Jul 2021. Weichai has already well-prepared for that in terms of product development.
- In particular, Weichai has successfully achieved >50% thermal efficiency for the commercial diesel engine. This will become a key competitor advantage over the competitors in future.
- Weichai will reduce the production volume of NES V engines in 1H21E in order to minimize the inventory risk after Jul 2021.

Commercial diesel engine with >50% thermal efficiency

- Low fuel consumption (8% lower) and high reliability are the two major advantages of this new engine.
- Target models are 10L and 13L. Weichai expects the products will be launched in late 2020E or early 2021E.
- The ASP will be higher than the existing products.

Linde Hydraulics (China)

- Revenue from Linde Hydraulics (China) reached RMB350mn in 9M20, up 40% YoY. In 3Q20, revenue surged 100% YoY.
- Currently, **XCMG (000425 CH)** and Shantui (山重建机) are the major customers. Linde is also increasing the sales to **Zoomlion (1157 HK, 000157 CH, BUY)**, **Lonking (3339 HK, SELL)** and **Liugong (000528 CH, NR)**.
- Low oil consumption and good shock absorption are the two major advantages of Linde's hydraulic products.
- Linde has been increasing the in-house production of components, which will help reduce cost in future.
- Linde is focusing on excavator at present. It is expected that Linde's hydraulic parts and engines will be installed for several thousand of excavators this year.
- Management expects strong growth in terms of volume and profit margin in 2021E.

Fuel cell battery

- The latest policy released by MIIT is positive to the fuel cell battery industry development. Weichai expects rapid growth over the coming 3-5 years.
- Weichai has already sold fuel cell products for 200-300 units of commercial vehicles.
- Going forward, Weichai will launch fuel cell battery products for trucks. Trial operation is planned.

Important Disclosures

There are risks involved in transacting in any securities. The information contained in this report may not be suitable for the purposes of all investors. CMBIS does not provide individually tailored investment advice. This report has been prepared without regard to the individual investment objectives, financial position or special requirements. Past performance has no indication of future performance, and actual events may differ materially from that which is contained in the report. The value of, and returns from, any investments are uncertain and are not guaranteed and may fluctuate as a result of their dependence on the performance of underlying assets or other variable market factors. CMBIS recommends that investors should independently evaluate particular investments and strategies, and encourages investors to consult with a professional financial advisor in order to make their own investment decisions.

This report or any information contained herein, have been prepared by the CMBIS, solely for the purpose of supplying information to the clients of CMBIS or its affiliate(s) to whom it is distributed. This report is not and should not be construed as an offer or solicitation to buy or sell any security or any interest in securities or enter into any transaction. Neither CMBIS nor any of its affiliates, shareholders, agents, consultants, directors, officers or employees shall be liable for any loss, damage or expense whatsoever, whether direct or consequential, incurred in relying on the information contained in this report. Anyone making use of the information contained in this report does so entirely at their own risk.

The information and contents contained in this report are based on the analyses and interpretations of information believed to be publicly available and reliable. CMBIS has exerted every effort in its capacity to ensure, but not to guarantee, their accuracy, completeness, timeliness or correctness. CMBIS provides the information, advices and forecasts on an "AS IS" basis. The information and contents are subject to change without notice. CMBIS may issue other publications having information and/ or conclusions different from this report. These publications reflect different assumption, point-of-view and analytical methods when compiling. CMBIS may make investment decisions or take proprietary positions that are inconsistent with the recommendations or views in this report.

CMBIS may have a position, make markets or act as principal or engage in transactions in securities of companies referred to in this report for itself and/or on behalf of its clients from time to time. Investors should assume that CMBIS does or seeks to have investment banking or other business relationships with the companies in this report. As a result, recipients should be aware that CMBIS may have a conflict of interest that could affect the objectivity of this report and CMBIS will not assume any responsibility in respect thereof. This report is for the use of intended recipients only and this publication, may not be reproduced, reprinted, sold, redistributed or published in whole or in part for any purpose without prior written consent of CMBIS.

Additional information on recommended securities is available upon request.

For recipients of this document in the United Kingdom

This report has been provided only to persons (I) falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (as amended from time to time) ("The Order") or (II) are persons falling within Article 49(2) (a) to (d) ("High Net Worth Companies, Unincorporated Associations, etc.") of the Order, and may not be provided to any other person without the prior written consent of CMBIS.

For recipients of this document in the United States

CMBIS is not a registered broker-dealer in the United States. As a result, CMBIS is not subject to U.S. rules regarding the preparation of research reports and the independence of research analysts. The research analyst who is primary responsible for the content of this research report is not registered or qualified as a research analyst with the Financial Industry Regulatory Authority ("FINRA"). The analyst is not subject to applicable restrictions under FINRA Rules intended to ensure that the analyst is not affected by potential conflicts of interest that could bear upon the reliability of the research report. This report is intended for distribution in the United States solely to "major US institutional investors", as defined in Rule 15a-6 under the US, Securities Exchange Act of 1934, as amended, and may not be furnished to any other person in the United States. Each major US institutional investor that receives a copy of this report by its acceptance hereof represents and agrees that it shall not distribute or provide this report to any other person. Any U.S. recipient of this report wishing to effect any transaction to buy or sell securities based on the information provided in this report should do so only through a U.S.-registered broker-dealer.

For recipients of this document in Singapore

This report is distributed in Singapore by CMBI (Singapore) Pte. Limited (CMBISG) (Company Regn. No. 201731928D), an Exempt Financial Adviser as defined in the Financial Advisers Act (Cap. 110) of Singapore and regulated by the Monetary Authority of Singapore. CMBISG may distribute reports produced by its respective foreign entities, affiliates or other foreign research houses pursuant to an arrangement under Regulation 32C of the Financial Advisers Regulations. Where the report is distributed in Singapore to a person who is not an Accredited Investor, Expert Investor or an Institutional Investor, as defined in the Securities and Futures Act (Cap. 289) of Singapore, CMBISG accepts legal responsibility for the contents of the report to such persons only to the extent required by law. Singapore recipients should contact CMBISG at +65 6350 4400 for matters arising from, or in connection with the report.
